<b>or specialty:</b>	Family Medicine (CCFP (EM,AM))
<b>Current hospital appointments:</b>	North Bay Regional Health Centre, Kirkwood Site, Sudbury Health Sciences North, Sudbury Espanola General Hospital, Espanola

I'm Lionel Marks de Chabris, a proud northern Ontario physician with a rich background as a doctor, executive, and current member of the CPSO Board (previously CPSO Council).

I am seeking your support for re-election to the Board.

What do I bring to the job? Through my journey in northern healthcare, grounded in patient-centered care and ethical practice, coupled with my work on the CPSO Board over the past two years and informed by strategic leadership as Chief Medical Officer of a publicly traded healthcare company, I have developed a nuanced understanding of our healthcare ecosystem. I am committed to the CPSO's work driving right-touch regulation, ensuring that we are proportionate, agile, and responsive to the evolving needs of the public. My approach emphasizes collaborative decision-making, leveraging my experience and that of other Board members to foster quality care and patient safety.

Aligning with those strategic goals, I have supported initiatives that promote meaningful engagement with stakeholders and underserved communities, understanding that their insights are invaluable in shaping a regulatory framework that is both effective and empathetic. My two years on the Board have been marked by a pursuit of collaboration, recognizing that partnerships across the landscape of healthcare, government and regulation are essential in addressing the complexities of modern healthcare.

Continuous improvement is a cornerstone of my work life. I am dedicated to environments where learning and adaptation are constant, ensuring that our regulatory practices not only meet current standards but also anticipate future demands. Re-election to the Board commits me to the ongoing work of balancing innovation with accountability, helping guide Ontario physicians in achieving excellence, and above all, protecting the public we serve. If elected I will work at building on our achievements and help steer the CPSO forward successfully.

With my thanks.

Lionel
